

Fencing

Permit Fees: \$ 40.00 up to 300 linear feet
 \$.05 per ft. over 300 linear ft. (Includes \$15.00 C/C fee)

Please remember to call the Building Department at
(585) 617-6195 for Final Inspection
After installation of fencing

Permit Requirements:

- Instrument Survey or Tape Location Map of subject property
- Fencing must be of OPEN construction with 1½" minimum spacing between the verticals(i.e., board-on-board, shadow box, chain link)
- Maximum four (4') feet high up to front setback of house; three (3') feet high from front setback of house to road right-of-way
- Placement on property line is acceptable, however, we request and recommend that the fence be placed a minimum of 2' from the property line to allow for a maintenance area between properties
- "Good side" of fence to face outward
- Fence is not to be placed in existing easements or buffer zones
- Final inspection is required upon completion

Fencing in excess of 4' in height or of closed construction requires that application be made to the Zoning Board of Appeals.

Any variation from the above code requires that you make application to the Zoning Board of Appeals. Additionally, other code considerations may be applicable.
