

Grants

Police Traffic Safety

Funded by the Governor's Traffic Safety Committee, this grant allows the Ogden Police Department to tailor a program that aims to improve traffic safety and reduce dangerous driving behaviors. Based on specific crash data and local traffic problems, the program allows us to use funds to decrease speeding violations, aggressive driving violations, seat belt and child restraint violations, distracted driving violations, passed school bus violations, and other enforcement issues that result in unsafe driving conditions and motor vehicle accidents.

STOP DWI

Funds provided through Monroe County assist the Ogden Police to keep drunk and drugged drivers off the road. Checkpoints and patrols held throughout the year are funded by the Stop DWI grant and enhance our ability to continue to keep our roads safe.
